NEW YORK, November 13.—No apparent obstacle presented itself to the advance in prices to-day. Except as blds were raised, there seemed to be no stock offered for sale. The mere fact of the advancing tendency of prices served to reduce the offerings, holders retaining their stocks in the hope of conviction that they could just as well get higher prices for them. Such offerings as were encountered were absorbed with ready confidence. Stocks which have hain dormant were revived by putting in bids at gradually advancing quotations without bringing out any stocks, the result being some remarkable advances in the sale prices over preceding transactions. All this served to feed the speculative enthusiasm which was prevaient in a high degree. The market took on all the appearance of a bull movement. The general proposition advanced by the enthusiasis was that a quick restoration of prosperity was in sight, with prospects of larger returns to capital than ever before.

Steel Reaches Topnotch.

United States Steel was made an object lesson for all followers of the prevalent speculative spirit. That stock forged upwards to successive new record prices, so that each stage of its advance offered an additional profit to any purchase that had ever been made of the stock since the formation of the company. Its top figure of 58 3-4 represented a rise of 2 points over the closing price last night, which in turn showed a gain of 17-8 over the closing of the preceding night.

It was the dominant factor in the market. Of the day's total sales of all stocks, reaching 1,693,200 shares, those of United States Steel reached the number of 221,800 shares. The large proportion of the day's dealings concentrated in that stock and in Union Pacific and Southern Pacific was significent of a centralization of the forces in the speculation.

Yet the general demand for stocks continued broad and widespread, and left practically no quarter of the list of securities unexploited. The room traders caused a slight reaction in realizing their day's profits, but the sidvancing tendency was sustained with remarkable consistency, and the closing tone was very strong.

Bonds were strong and very active. The day's transactions were probably the largest for any single day in the history of the Stock Exchange. Total sales par value, \$8,845,000. United States bonds were unchanged on call. Total sales to-day, 1,693,200 shares.
